

# My Indigo, Black Velvet Sun

I don't know how lost you are  
but down this road you'll fall apart  
Never giving up, never giving up, never giving up on you  
Never giving up, never giving up, never giving up on you

I wanna hold on to you black velvet sun  
I wanna hold on until the shadow is gone  
Wanna dance with you, you,  
Wanna dance with... you, you  
I wanna hold on to you black velvet sun  
Black velvet sun

Follow me... out of the dark  
I'll plant a seed, in your frozen heart  
and I'm never giving up, never giving up, never giving up on you  
never giving up, never giving up, never giving up on you

Oh babe  
I wanna hold on to you black velvet sun  
I wanna hold on until the shadow is gone  
Wanna dance with you, you,  
wanna dance with... you, you, i wanna dance with you  
I wanna hold on to you black velvet sun  
Black velvet sun!

Black velvet sun  
I'm never gonna give you up, I'm gonna...  
pick you up and drag you to the top  
I'm gonna ... be there for you, be there for you  
I'm never gonna give you up, I'm gonna  
pick you up and drag you to the top  
I'm gonna ... be there for you, be there for you

Black velvet, black velvet

I wanna hold on to you black velvet sun ... black velvet, black velvet  
I wanna hold on until the shadow is gone ... black velvet, black velvet

I wanna hold on to you black velvet sun
