

My Insanity, Cosmic Orgasm

I'm getting in - instinct gives me the power
You can feel me - I am here
I take possession of your sentiments
An invisible veil

The haze is organic - it's a real threat
Possessed by ecstatic - shrouded in mysteries

Look at her you are wild with enthusiasm
Movement's getting uncontrolled
It's fun to torment with my sensual kind
I make you blind

If you want - call me virus
If you can - come to terms with me
Anytime you'll see I'm your friend
Call me virus - if you still want
Call me!
Amorousness if you will see
