

# My Superhero, Sympathy For The Ants

walkin' around all day in a line  
three more ant miles, maybe four or five  
does the guy in the front really know where he's going?  
if we get lost i know we're gonna be bummin'  
how did i get this job of mine?  
i know i'll get my piece of the pie  
i'll leave this line and find my own good time  
but instead i'll march back to the nest  
and maybe the queen will even suggest  
that i come down and spend the night  
hey ho i'm gonna go, i'm gonna go now  
hey ho i'm gonna find a place to call my own  
they said that i won't live too long  
they said that when i die that i won't be alone  
millions will die today in chemical warfare  
but why do i tell you it's not like you care  
at least when i'm gone you'll have this song
