

# Myra, Wishing On The Same Star

It's so hard to leave you  
I don't really wanna go  
I don't wanna say Good-Bye to you  
It's the last thing I wanna do  
But I won't be sad now  
Cause 'til you're in my arms again you'll be inside of my heart

We'll be wishing on the same star  
And wherever I go, We'll never really be apart

CHORUS:

Looking at the same moon  
When you're thinking of me, baby  
I'll be thinking of you  
I will be there with you  
And no matter where I go  
Looking at the same moon  
It's not really over, baby, it will never be  
Wishing on the same star

I'll be there anywhere you are  
Long as you keep me in your heart  
And when you feel sad remember all the love we shared  
And when you're feeling alone

CHORUS

Well, just look up in the sky, oh and baby so will I

It's the same sun that keeps shining down  
No matter where you turn around  
Wising on the same star  
Wherever we'll be, I know that we'll be

CHORUS

Wishing on the same star
