

# Mysteries Of Life, Kiss Me Goodnight

In a car, driving far away  
It gets hard to remember  
Faces blur, voices fade  
But if there is any way

Come on, come on, come on  
Kiss me goodnight  
Come on, come on, come on  
Kiss me goodnight

But when we talk on the phone  
Do you sit by the window  
Little things that you do without  
Are all that I wanna know

Come on, come on, come on  
Kiss me goodnight  
Come on, come on, come on  
Kiss me goodnight

Do you stay up late when I'm gone?  
Oh, do you ever think about it twice?  
Do you hold yourself in your arms?  
Listen to your own advice

Kiss me goodnight  
Kiss me goodnight  
Kiss me goodnight  
Kiss me goodnight

Come on, come on, come on  
Kiss me goodnight

Do you stay up late when I'm gone?  
Oh, do you ever think about it twice?  
Do you hold yourself in your arms?  
Listen to your own advice

Kiss me goodnight  
Kiss me goodnight  
Kiss me goodnight  
Kiss me goodnight

Come on, come on, come on  
Kiss me goodnight  
Come on, come on, come on  
Kiss me goodnight  
Come on, come on, come on  
Kiss me goodnight  
Come on, come on, come on
