

Mysterious Art, Das Omen

You get eternity

Tremendous ecstasy

That's what you get from me

You will call me when you fear

It's just a simple deal

That you won't even feel

With blood you seal this easy and simple deal

Once this is sealed and signed

You will be mine all time

For all eternity you will have to follow me

Bridge:

I will get you

You won't get me

Refrain:

If there's a ghost in your mind

Call the omen

If there's a devil in your dreams

Call the omen

If there's a monster on your roof

Call the omen

If there's a witch on the hill

Call the omen

I don't believe in you

Of what you say and do

I will not sign this deal

Do not care how you feel

Don't want eternity

Don't want this ecstasy

Don't want to care for these

So please set me free
