

# Mystic, Neptune's Jewels

When I met you boy you was the sweetest thing  
Like a Sade tape in the coldest spring  
When I saw your eyes I thought they shined for me  
Just being in your space was divine me  
Gave you true smiles and a lot more time  
Then them ballin cats who fiend to be mine  
But really love you wasn't even fuckable  
The way you were made you highly untouchable  
Peeped you though every move you made  
Studied from a distance watched the games you played  
And some would say I shoulda never came closer  
But I ain't never had the taste for the phrase not supposed ta  
So I chose imagine that  
Put a plan into play to make it public fact  
That I'm the one and you shoulda knew  
That them other girls have never loved you like I do

(Chorus)

For you I'd dive into a treacherous sea  
Bring you Neptune's jewels to keep you happy  
I would fly into a merciless sun steal you the sky  
Cuz you're the one

Mighta took some time but most good things do  
Manifest when the time is true  
I admit I was nervous cuz things get changed  
Something about my lifestyle makes love so strange  
So many angles and tangled components  
Everybody wanna touch just for the moment  
But you put a new hue in my blue  
Added a perspective to my concrete views  
'Bout tossin caution into the breeze  
Followin' emotion like streams to the seas  
Top priority believe you me  
Like love how you feel, you alright, whatchu need?  
It's more than your lips on the nap of my necks  
Or your hands on my breast, with your leg on my thigh  
Or the look in your eyes as you slide inside  
It's the way you make me wanna live instead of die

(Chorus)

The funniest part is that I've never claimed you  
Yet and still when I talk to God I name you  
Even got you own song look, you a star  
No need to call names you know who you are  
I'd give you everything be the mother of your seeds  
Keep the world at bay if you need time to breath  
Be the chest to rest on when things a bit to much  
These offers they stand so no need to rush  
You young black and gifted whole life aheada you  
I love for that would never try to tame you  
So I remain dedicated in the wings  
Inspired by your laugh to wait for things  
I just hope you aware of what you actually got  
A true woman make my man want for not  
So when you here this song know I'm speakin to you  
This is a b-girl ballad, for true  
(Chorus) x2
