

'N Sync, Crazy For You

Wherever I go, whatever I do,
whenever my heart is crying out for you
Wherever I go, whatever I do, I'm crazy for you

It's not easy to be alone
It's not easy to fall in love
Every night I just get down and pray that you come my way

I've never had a girl like you, I've never know what love could do
Wish you'd come baby and set me free
I can't let it be, yeah

CHORUS

I wanna, I wanna rock with you
I'm gonna, I'm gonna make it true
I wanna, I wanna rock with you
I'm crazy for you

I'm waiting for the phone to ring
and all the wonder love should bring
All the things darling I left behind, please give me a sign

A little smile would light my life
A single touch would blow my mind
Girl you know, by now you've got to be mine til' the end of time

CHORUS

I wanna, I wanna rock with you
I'm gonna, I'm gonna make it true
I wanna, I wanna rock with you
I'm crazy for you

CHORUS
