

# 'N Sync, Crazy for you

Wherever I go, whatever I do,  
Whenever my heart is crying out for you  
Wherever I go, whatever I do  
I'm crazy for you  
It's not easy to be alone  
It's not easy to fall in love  
Every night I just get down and pray  
That you come my way  
I've never had a girl like you  
I've never known what love could do  
Wish you'd come baby and set me free  
I can't let it be, yeah

## CHORUS

I wanna, I wanna rock with you  
I'm gonna, I'm gonna make it true  
I wanna, I wanna rock with you  
I'm crazy for you  
I'm waiting for the phone to ring  
And all the wonder love should bring  
All the things darling I left behind  
Please give me a sign  
A little smile would light my life  
A single touch would blow my mind  
Girl you know, by now you've got to be mine  
Till the end of time

## CHORUS

I wanna, I wanna rock with you  
I'm gonna, I'm gonna make it true  
I wanna, I wanna rock with you  
I'm crazy for you
