

'N Sync, Crazy for you

Wherever I go, whatever I do,
Whenever my heart is crying out for you
Wherever I go, whatever I do
I'm crazy for you
It's not easy to be alone
It's not easy to fall in love
Every night I just get down and pray
That you come my way
I've never had a girl like you
I've never known what love could do
Wish you'd come baby and set me free
I can't let it be, yeah

CHORUS

I wanna, I wanna rock with you
I'm gonna, I'm gonna make it true
I wanna, I wanna rock with you
I'm crazy for you
I'm waiting for the phone to ring
And all the wonder love should bring
All the things darling I left behind
Please give me a sign
A little smile would light my life
A single touch would blow my mind
Girl you know, by now you've got to be mine
Till the end of time

CHORUS

I wanna, I wanna rock with you
I'm gonna, I'm gonna make it true
I wanna, I wanna rock with you
I'm crazy for you

CHORUS
