Digital Digital Get Down
Just what we need
If we can't get together naturally (then we can we can)
we can get together on the digital screen.

Everytime I'm sittin home alone girl
I can't wait to get you on the phone girl (So Pick it Up Babe)
I can see everything you do.
Bouncin me from satellite to satellite
I love the things you do for me so late at night
you turn me on
It's like I'm right there next to you yea.

Can we get connected
I need some love and affection baby,
I'll call you on the phone.
I hope that I get through.
If you're in the mood and I'm not home
here's what you do, leave a message
You know the kind I like (you know the kind I like)
To get back to you.
