

# 'N Sync, I Guess It's Christmas Time

Feel the magic in the air  
Christmas is all around  
Somethin about this special time of year  
A blanket of snow falls down from the sky  
Voices of angels  
Open our hearts so we can open our arms

Chorus:  
And we'll all join hands  
To celebrate the goodness  
That shines inside of everyone  
It must have been a part of some great design  
Guess it's Christmas time

Seein the face of the little boys and girls  
Singing their First Noel  
A sweet refrain heard all around the world  
A song of forgiveness, comforting peace  
A time to remember what life really means (Life really means)  
The important things (Important things)

Chorus

Guess it's Christmas time  
Open our hearts so we can open our arms

Chorus

Must have been a part of some great design  
Guess it's Christmas time  
Merry Christmas
