

'N Sync, The Game Is Over

Game over, game
The game is over
Game over, game
You lose

Game over, game
Ah yeah, ah yeah
You lose

Invincible
is what you think you are
But just so typical
though you think that you're a star
You act like everyone
revolves around you
Baby, you dropped the ball
And now the game is through

'Cause you tried to play both sides
You got caught up in your lies
And now you're running, you running outta time

Chorus:
You played yourself (Game over, game)
But did you, did you think that you could really find love from someone else?
(Game over, game)
You're making moves you gonna lose
You know you played yourself (Game over, game)
And now you're thinking thinking you can get one by me
But you'll never win, but you'll never win
Try again 'cause the game is over

The game is over

Take it personal!
'Cause I did when you cheated on me
You may be beautiful
But there's more that the eye can't see
You're so predictable
The way you calculate each move
Heads I win and tails you lose because you don't have the right to chose

'Cause you tried to play both sides (both sides)
You got caught up in your lies (In your lies)
And now you're running, your running outta time, yeah!

Chorus:
You played yourself (Game over, game)
But did you, did you think that you could really find love from someone else?
(Game over, game)
You're making moves you're gonna lose
You know you played yourself (Game over, game)
And now you're thinking thinking you can get one by me
But you'll never win, but you'll never win
Try again 'cause the game is over (yeah)

How could you think that you could do me like that?
Running behind my back
How could you do me like that (do me like that)?
Now the game is over
How could you think that you could do me like that?
Do me like that...
Do me like that...
Uh!

Chorus:

Played yourself (Oh!) (Game over, game)

But did you, did you think that you could really find love from someone else?

(Game over, game)

You're making moves you're gonna lose

You know you played yourself (Played yourself) (Game over, game)

And now your thinking thinking you can get one by me

But you'll never win, but you'll never win

Try again 'cause the game is over (Oh!)

Chrous:

You played yourself (Ooh) (Game over, game)

But did you, did you think that you could really find love from someone else?

(Find love) (Game over, game)

You're making moves you gonna lose

You know you played yourself (Played yourself) (Game over, game)

And now you're thinking thinking you can get one by me

But you'll never win, but you'll never win

Try again 'cause the game is over

Game Over
