

# 'N Sync, Under My Tree

It's that time of year  
Christmas is here  
Everybody's back together again  
Spreading the joy  
Spreading good cheer  
Toasting to another year's end  
So thankful for  
All of our friends  
When the party is over  
The night's just begun  
I promise the best part  
Is yet to come  
Slow dance together  
Two become one  
That's what we've waited all day for  
No one else but me and you  
Nothing I would rather do  
Then hold you all through the night  
Under my tree  
Bring along the mistletoe  
Keep the music nice and low  
I'll show you how good it could be  
I wish that Santa could be here to see  
It's beautiful  
Under my tree  
The fire's aglow  
We've got Nat King Cole  
Singing us a song from his heart  
Sleigh bells and snow  
Makes us feel close  
To the stars  
When carols are sung and  
The fire has died  
The embers still burns with the love in our eyes  
We cherish the moment  
We savor the night  
That's what we've waited all day for  
No one else but me and you  
Nothing I would rather do  
Then hold you all through the night  
Under my tree  
Bring along the mistletoe  
Keep the music nice and low  
I'll show you how good it could be  
I wish that Santa could be here to see  
It's beautiful  
Under my tree  
No one but me  
No one but you  
See rendez-vous (under my tree)  
No one but me  
No one but you  
When the party is over  
The night's just begun  
I promise the best part  
Is yet to come  
We slow dance together  
Two become one  
That's what we've waited all day for  
No one else but me and you  
Nothing I would rather do  
Then hold you all through the night  
Under my tree (under my tree)  
Bring along the mistletoe

Keep the music nice and low  
I'll show you how good it could be  
I wish that Santa could be here to see  
I wish that Santa could be here to see  
No one else but me and you  
Nothing I would rather do  
Then make all your dreams come true  
Under my tree  
Such a cozy rendez-vous  
Just relax enjoy the view  
I'll show you how good it could be  
I wish that Santa could be here to see  
It's beautiful, beautiful, beautiful under my tree  
It's that time of year  
Christmas is here  
It's that time of year  
Christmas is here  
Full of love and good cheer
