

'N Sync, You Don't Have To Be Alone

You Don't Have To Be Alone(Also in "The Grinch" movie)

I don't know when we fell apart
The love that we had was like a work of art
I used to see heaven in your eyes
Now angels are falling from your skies

The things we said were so wrong
And I haven't held you for so long
My foolish pride turns me inside
Why did we tell all those lies
If you can reach for the phone
You don't have to be alone

*Outside the wind it seems so cold
Your heart is frozen like the snow (snow)
And there's no one home to keep you safe and warm
Your eyes are red because you've cried (cried)
You fell asleep by the fireside (fireside)
but there's one thing you should know
On this Christmas baby, you don't have to be alone

And I had only one wish on my list
For me you would be the perfect gift
There's nothing colder than an empty home(empty home)
And holidays were never meant to be alone (to be alone)
The smiles we gave when our hearts were saved
By each others' love and warmth
That's subsided now no happiness around
If I can only find a way to your heart

*Outside the wind it seems so cold
Your heart is frozen like the snow
And there's no one home to keep you safe and warm
Your eyes are red because you've cried
You fell asleep by the fireside
but there's one thing you should know
on this Christmas baby, you don't have to be alone

Bridge:
You don't have to be alone
You don't have to be all alone(at Christmas)
You don't have to be alone
You don't have to be all alone

*Outside the wind it seems so cold
Your heart is frozen like the snow
And there's no one home to keep you safe and warm
Your eyes are red because you've cried
You fell asleep by the fireside
but there's one thing you should know
on this Christmas baby, you don't have to be alone
