

Na Leo Pilimehana, Simple As A Sunrise

I wake to feel your love surround me
the beauty that's there in your smile
It lights the whole world around me
And I know you are here all the while

I see the magic that's within you
The way you appear like a star
and shine like nothing else around you
I want to be right where you are

Simple as a sunrise
your love is my light
chasing all of the darkness away
And I know in your eyes, for all of my life
there will always be something that guides my way

I dream at night I'm with an angel
and rise to behold it is you
So let the stars stay up in heaven
the wish I want most has come true.

Simple as a sunrise
your love is my light
chasing all of the darkness away
And I know in your eyes, for all of my life
there will always be something that guides my way
