

Nada Surf, Telescope

i think i lost some years, sometimes i don't know how
i forget to remember now
you used to tell me things that you were thinking
now we don't even talk, that's what i'm thinking
let's have a day outside for the lonely
they're gonna cry tonight
i've got some stuff in a box, maybe i'll show you sometime
but the box would think that was unwise
some days the view from here, it means nothing
i woke up with the fear again this morning
let's have a day outside in the sun
play around and have a lot of fun
we've got some telescopes in our hands
just try to keep them pointed at the land
let's have a day outside tonight
i've been distracted from the things that i wanna do
i've been distracted from the way i wanna be for you
