

Nadia, Take Me Up

I am full of energy. Maybe are you ready for me
This is an emergency. It's so crazy suddenly
It's so good, so natural
It's so good when you talk to me
It's so good, so physical
It's so good when you're high with me

Take me up, baby take me up
Take me up, take me up, oh baby take me up.
Take me up, take me up, baby take me up
Take me up, take me up, oh baby take me up
It's a magical touch not running through my love
Can you take me higher, can you take me up
Take me up, baby take me up
Take me up, take me up, oh baby take me up.
Take me up, take me up, baby take me up

Take me up, take me up, oh baby take me up

I am full of energy
I know that you're searching for me
This is an ecstasy.
Maybe won't you come to me
It's so good, so natural...

I am full of energy.
Feel the power inside me
This is all that you will see
A love reaction instantly
It's so good, so natural...
