

Nahkampf, If You're White

Read the papers, watch TV, hear the media lie to me
On the radio, in the news, you're all wrong except the Few
The government doesn't tell the truth, destroy the future of the white youth
If you're white, they'll say you're bad, they must think that we're all mad

If you're white, you're alright
If you're white, today
If you're white, OK
If you're white, you're alright

They ban our marches, squash our rights, we'll resist with all our might
There seems to be a moral lack, marches allowed for reds and blacks,
They started riots, raised all hell, for a communist Kurd they burnt themselves
Leftwing queers telling their lies, calling on an antifascist fight

Chorus

Well it's our country, let's take it back, give the race act men the sack,
For the cause some go to jail, and this must mean that we must never fail,
They'll try and make you feel ashamed for everything our race is blamed
They'll try and tell you day is night, but don't forget that white is right.

Chorus
