

Naim Thomas, Someone To Love

City of strangers
millions alone
I'm only looking for one

Dirty old river
no streets of gold
I guess that I should've known

I'm walking on busy street
I'm chasing someone else's dream
looking past the eyes that never meet
ain't that you and me

Someone to give my love to
all I need is someone to love
Someone to give my love to
all we need is someone to love

I got the letter
the letter from home
I read it every day
cause it reminds me
that there's still a part of me
that never went away

I wake up to the London rain
no one to guide me, to confide in
It's getting harder for me to pretend
that I can make it alone

Someone to give my love to
all I want is someone to love
Someone to give my love to
all I want is someone to love

And as I walk the streets of stone
I never felt so all alone
wishing I had someone to hold

Someone to give my love to
all I want is someone to love
Someone to give my love to
all I want is someone to love

Someone to give my love to
all I need is someone to love
Someone to give my love to
all we need is someone to love
