

Naked Aggression, Us Against Them

Ahhhh! F**k off Every single day I get more pissed off I protest in the street and tell the government to f**k off They can call the troops out they can try to lock me up That'll not stop me I'll fight until I die I will fight them Don't give leaders control - Take back your life Don't give leaders control - Take back your life I hate this f**king system, want to smash it to the ground People following orders doing what they're told to do Not thinking for themselves, fitting into society's mold The leaders want us all this way, little clones that they control The government is fighting a war against us They are the true enemy, it's US AGAINST THEM, US AGAINST THEM, US AGAINST THEM, US AGAINST THEM! Ahhhhhh! F**k off The entire world is a bloody mess People getting killed by the governments that oppress I am sick of their shit, I refuse to take it We outnumber them so let's take back our lives I will fight them We can stop them Don't give leaders control - Take back your life! Don't give leaders control - Take back your life! I hate this f**king system, I want to burn it to the ground Don't listen to authority, they put lies in our heads Since they can't control us, they want to see us dead The government is fighting a war against us They are the true enemy, it's US AGAINST THEM, US AGAINST THEM, US AGAINST THEM, US AGAINST THEM!
