

Naked Eyes, Impossible Dream

There's only one Universe
One heaven above
And only one you
And you're who I love

This Impossible Dream
This Impossible Dream
That we are
We've come so far

With all the love in the world
I come to you
And with every breath
I breathe for you

This Impossible Dream
This Impossible Dream
That we are
We've come so far

Take a trip down to Zanzibar
I'm gonna go by air and then by car
Relax et vous avec a lemon twist
In the dark, she blew me a kiss
Nobody's gonna save your soul
With three hail mary's and a rigermarole
It's all up to you

This Impossible Dream.....
You've gotta learn to walk, you've gotta learn to talk
Learn to live and forgive
This Impossible Dream.....
You've gotta learn to be, learn to see
learn to love humanity
This Impossible Dream.....
You can reach the stars, don't be shy
You can pull them from the sky

Words and Music: Pete Byrne and Rob Fisher PJB Music
