

Nakedheart, Confide In Me

I stand at a distance
And I do it from afar
She yells for some assistance
Should it matter who you are

We all get hurt by love
And we all have a cross to bear
But in the name of understanding
The problem should be shared

Confide in me, confide in me

I can keep a secret
And throw away the key
But sometime to release it
Is to set our spirit free

Stick or twist the choice is yours
Hit or miss what's mine is yours
