

Nana Mouskouri, To Be The One You Love

1-To be the one you love
To see forever in your eyes
To know there will be no more goodbyes
Now I have you

2-
To be the hand you reached to hold
And never think of growing old
To live the greatest story told
Of love come true with you

3-
To share what faith may bring
A time to cry, a time to sing
To know my world has everything
Now that I have you

4-
To need the shadows of the night
And touch your face at morning light
To know how lucky I must be
To be the one you love

Repeat 3-4-

The one you love
The one you love
The one you love
