Say You'll Forget Me
I just hope to hear it when you say it
Say You'll Forget Me
If you feel its so easy
Then tell me.

Its just words that If you can say it, say it
Its just words that If I was in your place I wouldn't be able to say it.
I swear with all that is between us.
I swear with my heart that holds you.
I'll forget you before the words part your lips.
Say You'll Forget Me

Think about it long and hard
Because If You say it, I Will Not Come back to you.
Calculate it right
Because ofcourse the price will be high for you.

Because if I even feel it in your eyes
Its gonna seperate you and I

Its just words that If you can say it, say it
Its just words that If I was in your place I wouldn't be able to say it.
I swear with all that is between us.
I swear with my heart that holds you.
I'll forget you before the words part your lips.
Say You'll Forget Me

Alot of times
I had the right to tell you, to forget,
but you didn't.
And you left no mistakes not made, in love.

I hid it, while my heart held it.
Even though you deserved it.

Its just words that If you can say it, say it
Its just words that If I was in your place I wouldn't be able to say it.
I swear with all that is between us.
I swear with my heart that holds you.
I'll forget you before the words part your lips.
Say You'll Forget Me
