once and always.....

(Nasty)

Nasty Hazzard and MC Jerome
phenomally stoned on the microphone
were seizing rap like caesar seized rome
remembering chivalric you aint alone
name is nasty life full of hazzard
maverick regenade life full of daggers
life for me is music my passion
sex drugs dont
i like fashion
ecko
academic flatcaps, do-rags
masturbate to my porno mags
smoke the joint of hatred
everyone says that im
al-ways be-la-ted
out of time
but always benign to my friends....

i show no benevolence so much eloquence
when im chung my raps have no relevance
ding my boy jerome
tell him to leave home, come get stoned
im ever so prone to prevail in my zone
knight in shining armour
hit you with the drama - released by the karma
and cos i kneel down to the king gimme a ding
and i might just say
bing bong!

(Jerome)

i snap like king kong
so dont get in my way cos i never am wrong
i would spitroast you but that takes too long
what im here for tonight is to get f**king monged
monged off my face
its a f**king disgrace, lights make you so dizzy
acting oh-so silly
playing games all night like
budweiser
check that bitch out i got my eyes on her
my rhymes so deep im sharp as razor
never lost my gift despite being such a blazer
underestimate me ill shock you like taser
and then make you eat my f**king shit....
but ill let that go this time
even though you messed up my f**king rhyme
i think that its time to hit the dro'
get ready for it dont be too slow man
this dont shower man
fo' sho'
dez dez my man you my hero

chorus:

(Jerome)

someone set me B's on zoot or ill kill 'em
on second thoughts set me draw for a min and ill bill 'em
up a nice L yeah that will just chill 'em
then well play bing bong until we just drill 'em

(Nasty)

50 second joint rinse sure will kill 'em
zoot upon zoot but let jerome bill 'em
get out the beers yeh we should just chill 'em
then comes bing bong nasty just thrill 'em

(Repeat chorus)

(Nasty)

im the best i dont come from the west
im north all my life
and im feeling the strife, the strife is rough i got cut by a knife
nine times yeah you dig my rhymes
blazing make you feel like running a mo-no-po-ly
sitting in a bar looking pretty just sipping shandy
--- lets pick up a key of draw
and smoke it all in the school
dont need motivation, renotation, its my location that breeds my vocation
alienation hazzard has no patience
f**k with me its all dilapidation
pTc gonna f**k you up
all you jewdemi pricks we wont back you up
nasty hazzard dont take liberties
dont you f**k i got history
who do you think taught you to bust knees now
who do you think taught you to smoke trees
Josh Es, Apple Cs, Hydraulic Bs and Jamie Ts
i set J a ding-a-ling
if he gives me a bing-b-bing-bing-bing-bing-bing

(Jerome)

bong!

dont you see my point
all i wanna do is blaze a joint
i dont care what it is roll up a bob marley
get it toking like heaven
that would be gnarly
make sure its all spread though - proportionate
a rip on that end would be unfortunate
mess my zoot ill get the UCS army come down on you
like a f**king tsunami
this shits good
get that copy and pasted
and meanwhile make sure i get f**king wasted
cos i remember the times of pokemon blue
like when charizard 'gainst pikachu
shit use tailwhip to bring defence down
diminishes hit points - bring 'em to the ground
get scooped by onix while battling rock
pikachu attacks but no
effect from thundershock
i think that the situations getting quite hairy
might be time to bring on clefairy
looks like dead meat all she does is just sings
but pidgeots here now spreading her wings
looks like onix just got dusted
its super effective rock just got busted

got your first badge now - good on you ash
and look - you even got a shitload of cash
shame that your mum has got bare fanny rash
and that you cant come here and spark up some hash
dont worry too much
just go home cos my batterys dead
dont f**k with jerome

(Chorus)
