

# Nasty Savage, No Sympathy

I tried to tell you many times  
Never would you listen  
Fantasies and lust filled dreams  
Will they all come true

Now open your mind from the inside  
The clock will keep on ticking  
For when I saw it  
I knew it needed  
To spend the night with you

By the hand she led me  
To that lonely room  
Rapture with a kiss  
The passion burning heat

Gaze into those eyes  
See beyond within  
Gaze into those eyes

Oh those sweet, sweet dreams  
Turned into nightmares  
For in this place and time  
We've all been here before

The writings on the wall  
The sea is off the shore  
With mystique mistreater  
Show no sympathy

Rapture with a kiss  
The passion burning heat  
To see beyond within  
I'm living out my dreams  
With mystique mistreater  
Show no sympathy
