

Nasum, The Engine Of Death

he engine is alive
Fear it cultivates
Masses putrefy
Profit they create

The engine's working well
Iron glowing red
Masses put in hell
Piles of newly dead

A sickening steam is emerging from the pipes
- The engine of death!
This brutal machinery is bound to take some lives
- The engine of death!

The engine now evolves
Loads another game
Masses then revolt
The fear they will reclaim

The engine's running wild
Impossible to stop
Masses can't decide
They will stay as crop

A sickening steam is emerging from the pipes
- The engine of death!
This brutal machinery is bound to take some lives
- The engine of death!

It's running on human fuel
Spewing black ash and toxic dust
Man against machine a mighty duel

A sickening steam is emerging from the pipes
- The engine of death!
This brutal machinery is bound to take some lives
- The engine of death!
