Nasum, The Idiot Parade

Thought you were deaf Yeah, I thought you were blind When you just stood there While the idiots walked in line

In the idiot parade

You are taking their side You are holding their hands You stupid motherfucker This must come to an end

Come to an end!

Your senseless thoughts of racial pride Have infested your weak mind Will you ever realise? It's not you or them - it's us!

Protected by laws Made by your own kind It's the system in progress It's the death of the free mind...

It's the idiot parade!

Deaf, dumb and blind May be your only excuse Not how much you have suffered Not the years of abuse

The truth is foolproof!

Your senseless thoughts of racial pride Have infested your weak mind Will you ever realise? It's not you or them - it's us!

Face me Convince me And show me How I am wrong, what I have started

Blame me Seduce me Convict me Decide my fate and end my struggle.

Nothing went wrong There is no one to blame Yet no one is safe When the idiots are on parade!
