

Nat Stuckey, Listen To The Band

Hey hey mercy woman play a song you know I'm listening
For I need help I'm falling again
Play the drum a little bit louder tell me I can live without her
If I only listen to the band listen to the band

(banjo)

Your song is to make me happy I make out and I make it along

Oh mercy woman...

(banjo)

Your song is to make me happy...

Listen to the band hey hey mercy woman...
