

Nat Stuckey, Now Lonely Is Only A Word

When I needed sunshine you saved it for me
When I had no future you made it for me
So I'm gonna love you for all that I'm worth
Cause lonely is only a word

When I needed lovin' you gave it to me
When life had no music oh you played for me
You gave me more that I ever deserved
Now lonely is only a word

Lonely was only what I used to be
With no one around to bring comfort to me
Then I found you and I lost all the hurt
Now lonely is only a word

So I'm gonna love you for all that I'm worth
Cause lonely is only a word
Now lonely is only a word
