

Nat Stuckey, Only A Woman Like You

Only a woman like you can make a man of me
For a man like me can't go through life alone
Only a woman like you can make a man of me
Without your love I'm weak but with your love I'm strong

Down every road I'll have to walk and every path I'll have to cross
I'll need someone who'll be standing there with me
Someone who can take my smallest dream turn it into the greatest thing
Darling only you can make a man of me
Only a woman like you...
Without your love I'm weak but with your love I'm strong
