

Natalia Barbu, In The Middle (Mołdawia - piosenka)

Listen your voice inside your heart
Right in the middle
Open your mind just like a door
Right in the middle

Raise your wings, don't be afraid
Of falling down
All around, the world is changing overnight

I want you be happy all of your life
A beautiful angel, the work of ours
Beautiful sunshine spreading around
I know your heart is filled with love

I feel your love inside my heart
Right in the middle
Open your eyes, it's like a door
Right in the middle

Raise your wings, don't be afraid
Of falling down
All around, the world is changing overnight

I want you be happy all of your life
A beautiful angel, the work of ours
Beautiful sunshine spreading around
I know your heart is filled with love
