Dark light pushes beetwen us
From different worlds they don't see us
Time is running without you
I love the way You do,
I love the way You move
Tell me how does it feel like
Colours blowing our heads now
I don't know where's our beginning..

I've be with that
Light pushes beetwen us
I've be with that
/3x

Dark light pushes beetwen us
From different worlds they don't see us
Time is running without you
I love the way you do,
I love the way you move
Tell me how does it feel like
Colours blowing our heads now
I don't know where's our beginning
We're in the fire cave.
Feels like we'll go insane

Ooo, ooo
I've been waiting till we let it go
Ooo
I've been waiting but we're far from home
/2x

Dark light pushes beetwen us
From different worlds they don't see us
Time is running without you
I love the way you do,
I love the way you move
Climb baby I on your face
Filling up our sickness
Eyes lost than in bloody balance

I've be with that
Light pushes beetwen us
I've be with that
