

Natalie Bassingthwaighte, 1000 stars

I'm breathing in pieces
Just tasting the feeling
all open, suggestions
Unspoken within
And it takes me to another place
The universe, the endless space above, above
And the world is like a mirror ball
I'm spinning in the after glow of love
Ouuu
1000 stars, 1000 breaths, 1000 voices singin'
1000 heartbeats under my skin
This is where we begin,
Right here
Skin diving slow motion
The colours are running
you call me, i'm coming
I'm taking it in
And it takes me to another place
The universe, the endless space above, above
And the world is like a mirror ball
I'm spinning in the after-glow of love
1000 stars, 1000 breaths, 1000 voices singin'
1000 heartbeats under my skin
This is where we begin,
Right here
Come on in, come on in come on in ...
Come on in
Closer
1000 stars, 1000 breaths, 1000 voices singin'
1000 heartbeats under my skin
This is where we begin,
Right here
