

# Natalie Bassingthwaighte, Love Like This

I wasn't looking for the answer  
You whisper my name, my hearts beating faster  
A thousand butterflies and I still can't believe it  
A love like this, never had a love like this  
I can't fight this feeling anymore  
Like a shockwave through me, never been like this before  
And it's your kiss, pure bliss, better than the fantasy  
And a love like this, never had a love like this  
I wasn't waiting for the moment  
The touch of your fingers, stars are exploding  
Straight into my heart and I just can't believe it  
A love like this, never had a love like this  
I can't fight this feeling anymore  
Like a shockwave through me, never been like this before  
And it's your kiss, pure bliss, better than the fantasy  
And a love like this, never had a love like this  
Beautiful boy, beautiful boy, you got me now  
Falling so fast and I never, no I never had a love like this  
Never had a love like this, a love like this, never had a love like this  
I can't fight this feeling anymore  
Like a shockwave through me, never been like this before  
And it's your kiss, pure bliss, better than the fantasy  
And a love like this, never had a love like this
