

# Natalie Bassingthwaighte, Someday Soon

Someday soon you're gonna catch that dream  
You've been chasing  
Someday soon (soon), someday soon (soon)  
Someday soon (soon), someday soon (soon)  
Out there in the air tonight  
It's electric (electric), it's alive  
Suddenly you can see right before your eyes  
A thousand candles burning bright  
Someday soon you're gonna catch that dream  
You've been chasing  
Someday soon they're gonna write your name in the sky (sky)  
All you need is just to believe it  
You know you're my hero (my hero)  
You're gonna be a star tonight  
Inside feel your heart ignite  
It's your time to arrive  
Suddenly you can see that it's possible  
And I'll be right here by your side  
Someday soon you're gonna catch that dream  
You've been chasing  
Someday soon they're gonna write your name in the sky (sky)  
All you need is just to believe it  
You know you're my hero (my hero)  
You're gonna be a star tonight  
Take a step one moment  
Closer to the magic  
It's just one heartbeat away  
Don't give up, embrace it  
Breathe it in, believe it  
You know the way  
Someday soon you're gonna catch that dream  
You've been chasing, yeah  
Someday soon they're gonna write your name in the sky  
All you need (yeah) is just to believe it  
You know you're my hero (my hero)  
You're gonna be a star tonight  
Someday soon you're gonna catch that dream  
you've been chasing  
Someday soon they're gonna write your name in the sky  
All you need is just to believe it  
You know you're my hero  
You're gonna be a star tonight
