

# Natalie, Better Get It Right

Hey... oh... yeah... (better get it right)

Oh... oh... yeah... (better get it right)

(Chorus)

better get it right

don't wanna be your part time lover

better get it right

if you want my love for sure

better get it right

Don't wanna be another number

cause you and me go together boy

you know I make it right for you

because I certainly adore you

I got your back, you notice that,

I'm holding it down (for you)

I'm always here when you need me

I give the best to my baby

I get it right, I WANT IT RIGHT,

baby can you feel me

(Bridge)

I really wanna be your only

I'm not just trying to be your homie

and you could be the one to hold me

when I'm lonely inside YEAH

you could be the one to touch me

and you could be the one to love me

and you could be the one to kiss me

BETTER get it right, yeah

(Chorus)

I give you all of my sweetness

it's sad to say you're my weakness

I give it up, all that I have

so everything is for you

if I could be the only girl  
we can get it right  
I'm telling you boy right now  
just let me be the one

(Chorus)

(Max Minelli)

You got issues  
'cause I make pimp moves  
and I break yo heart  
and you need tissues  
'cause I make you cry  
and I know you try  
you say bye-bye  
can't lie I die  
and now my situation  
in the air like a pop fly  
should you let go  
or should you hold on  
one day  
I promise Imma put a smile on yo face  
I left a trace of my cologne on your pillow case  
you wanna teach and  
I gotta get money from dishin  
and your broken heart needs a' fixin'  
but you don't super woman xray vision  
you look inside me and see my mission  
to get it right  
I really wanna be your only  
I'm not just trying to be your homie  
and you could be the one to hold me  
while I'm lonely inside (yeah)  
you could be the one to touch me  
and you could be the one to love me

and you could be the one to kiss me

get it right, yeah

(Chorus)
