

Natalie, Better Get It Right - Max Minelli

Hey... oh... yeah... (better get it right)
Oh... oh... yeah... (better get it right)

(Chorus)
better get it right
don't wanna be your part time lover
better get it right
if you want my love for sure
better get it right
Don't wanna be another number
cause you and me go together boy

you know I make it right for you
because I simply adore you
I got your back, you notice that,
I'm holding it down (for you)
I'm always here when you need me
I give the best to my baby
I get it right, all that i have,
baby can you feel me

(Bridge)
I really wanna be your only
I'm not just trying to be your homie
and you could be the one to hold me
when I'm lonely inside
you could be the one to touch me
and you could be the one to love me
and you could be the one to kiss me
better get it right, yeah

(Chorus)
I give you all of my sweetness
it's sad to say you're my weakness
I give it up, all that I have
everything is for you
if I could be the only girl

we can get it right
I'm telling you boy right now
just let me be the one

(Chorus)

(Max Minelli)
You sayin we got issues
'cause I make pimp moves
and I break yo heart
and you need tissues
'cause I make you cry
and I know you try
you say bye-bye
can't lie I die
and now my situation
in the air like a fire fly
should you let go
or should you hold on
one day
I promise Imma put a smile on yo face
I left a trace of my cologne on your pillow case
you want attention I gotta get money; addiction
and your broken heart needs a' fixin'

but use yp super woman xray vision
to look inside me and see my mission
to get it right

I really wanna be your only
I'm not just trying to be your homie
and you could be the one to hold me
when I'm lonely inside (yeah)
you could be the one to touch me
and you could be the one to love me
and you could be the one to kiss me
get it right, yeah

(Chorus)
