

Natalie Brown, You Gotta Believe

(N. Brown/J. Rwakaara)

V1

You've been thinking about your life
And wondering what to do
You have some big dreams inside
But how do you see them through
When you don't know where to go
To make a start
Tell ya what, listen to your heart
Focus on the prize, dreams will be realized
No matter what people say, keep going anyway

Chorus:

You gotta believe, believe in you
You gotta have faith, faith in all you do
You gotta stay strong, no matter what comes your way
Get on your knees so you won't stray
You gotta believe

V2

Sometimes when you
Have a dream to achieve
Things get rough and tight
But ya gotta believe
That if you stay in the game
You'll come out on top
So give it your all, don't ever stop
Focus on the prize, dreams will be realized
No matter what people say, keep going anyway

Bridge:

Focus so you won't stray
No matter what people will say
Keep on goin' do your best
Know that you will be blessed
