

# Natalie Cole, Teach Me Tonight

[Talking]

Excuse me, did you call yourself a love expert?  
Studied, graduated and qualified to show me what it's all about?  
Oh honey, talk is cheap, you're gonna have to convince me.

[Singing]

Did you say I've got a lot to learn  
Well don't think I'm trying not to learn  
Right here is the perfect spot to learn  
Teach me tonight

Starting with the ABC of it  
Right down to the XYZ of it  
Teach me the whole mystery of it  
Teach me tonight

Well the sky's a black board high above us  
And if a shooting star should fly by  
I'll take that star and write "I love you";  
"I love you"; a thousand times across the sky

One thing isn't very clear, my love  
Should the teacher stand so near, my love  
Graduation's almost here, my love  
Come on and teach me tonight

[Interlude]

The sky's a blackboard high above you  
And if a shooting star should fly by  
I'll take that star and write "I love you";  
A thousand times across the sky

Ahh, one thing, one thing isn't very clear  
Should no teacher stand so near  
Graduation's almost here  
Come on and teach me tonight

Graduation's almost here, my love  
Teach me, teach me tonight

Ohhh Ohh
