

Natalie Durham, Let You Go

things were good and things were fine
until you nearly blew my mind
wont you sing to me one more time
before you walk away...
you said other things were more important
pretty much i was a waste of your time
please explain to me what i did wrong
before you leave me here..

before you leave me here to cry
before you leave me all alone
after you have explained to me why
before i let you go..

now youre gone on one hand im sad
on the other im quite mad
you took my car and you stole my heart
i hope you run out of gas....
youre lookin' for the rest of your clothes
did you check in the garbage can
or maybe in the fire place
to warm my heart so cold...

before you leave me here to cry
before you leave me all alone
after you have explained to me why
before i let you go..
