

# Natalie Walker, Over And Under

Whats this again  
Ive heard this so many times  
Youre scared  
Im tired  
I cant reach in and find a way  
To say this is the last time  
This is the last time  
This is the last time  
You send me over and under  
Over and under  
Over and under  
You send me over and under  
Over and under  
Over and under  
Ive always helped you  
Ive always listened  
Your words repeating  
Stagnant and distant  
Now we are stuck  
Right where we started  
Damage is done  
This is the last time  
This is the last time  
Its gone too long  
Why dont we stop  
We cant go on  
Weve hit the end  
You send me over and under  
Over and under  
Over and under  
You send me over and under  
Over and under  
Over and under
