

Natasha Bedingfield, I'm A Bomb

Taxi ride, going down town
Me and my girls, going out
counting down to detonation
10 to zero, mushroom cloud

Little angel, i've been too good
Ditch the halo for a while
Dressed to kill i'll be causing
Mass destruction, so shield your eyes
i'm all steamed up and ready to blow
Pressure max, meter red overload
To get release i gotta explode

I'm a bomb, can you hear me tick?
Beware if you turn me on
There is no safety switch
I'm a bomb use only steady hands
To mess with me
You must be a brave man

Bass so loud, i can't hear you
Can't defuse me not im wired
Do not disturb while i'm dancing
watch me set this house on fire

I'm a bomb, can you hear me tick?
Beware if you turn me on
There is no safety switch
I'm a bomb use only steady hands
To mess with me
You must be a brave man

Club crescendo getting loud
Run for cover underground
what are you doing showing me no fear
You must be crazy hanging around here
