

# Natasha St-Pier, Friends

Do you remember when  
We used to trace our names  
And our hearts in the sand  
We called it games

Yes I remember then  
We never called love  
This feeling higher than  
The sky above

Than the sky above

We will be good friends forever  
I'll stand by your side no matter  
Sometimes I feel how much I care for you  
We will be good friends forever  
Nothing has change, I wonder  
I always knew how much I meant to you

Do you still feel the same  
For me since that sweet time  
Who has to take the blame  
For our names rhyme

Yes I do feel the flame  
And it burns even more  
When I still read your name  
On the shore

Your name on the shore

We will be good friends forever  
I'll stand by your side no matter  
Sometimes I feel how much I care for you  
We will be good friends forever  
Nothing has change, I wonder  
I always knew how much I meant to you

Nothing will change  
If we just kiss  
Like brother and sister  
Caus' what we've got  
Isn't it bliss

Nothing will change  
We'll stay like this  
Like brother and sister  
Because if not  
We would miss

Miss each other

We will be good friends forever  
I'll stand by your side no matter  
Sometimes I feel how much I care for you  
We will be good friends forever  
Nothing has change, I wonder  
I always knew how much I meant to you
