

Natural Vibrations, Into Me

People say I'm the life of the party cuz I like to tell a few jokes
But they don't know just how I am for real
So you know they want to tag along

You are into me
You are into me
You are into me
You are into me

Well check this out
When I'm walking down the street, people tell me hi
I tell them hello, how are you doing, yes I'm doing fine
But they don't know just how I am for real
So you know they want to tag along
