## Nazareth, Big Boy

A shoe shine boy gave me a nickel With a smile on his face The school kids would give me some gin If I would let them in They were shaking all over

Ran into a friend with a lonely lady on his arm Woke up in my garage, I was holding my own Can't remember where I'd been I was aching all over From rolling on the stone I was aching all over from rolling on the hard stone.

Ooh, what a night you can have when you're a big boy Ooh, what a night you can have when you're a real big boy Ooh, what a night you can have when you're a big boy Ooh, what a night you can have when you're a real big boy

Kissin' cousins just ain't my style
Not like some knight in shining armour
Touring with the sideshow
That was my blow
But we hung on for the fun
Lots of fun for everyone

Ooh, what a night you can have when you're a big boy Ooh, what a night you can have when you're a real big boy Ooh, what a night you can have when you're a big boy Ooh, what a night you can have when you're a real big boy

Till the danger man with his danger plan
He took me aside
And then he took me apart
I was a young man with love in my heart
Oh, how he made me pay
It was the hard way
It was the hard way

Ooh, what a night you can have when you're a big boy Ooh, what a night you can have when you're a real big boy Ooh, what a night you can have when you're a big boy Ooh, what a night!
