

# Nazz, Love Everywhere

It's here, tapping on my window, knocking on my door  
It's coming out for sure  
It's there, floating on the air, must be everywhere  
Saying do you want to share

Could it be  
That what you want to see is  
What you see  
It's all around you  
So please think of what you're saying  
Don't rush

Think more of us  
If you can try to understand  
It's easy to make plans  
Just love me if you can

What's your answer  
Or will you take this chance and  
Make a stand for  
It must be everywhere  
Love everywhere, everywhere
