

Nazz, Love Everywhere

It's here, tapping on my window, knocking on my door
It's coming out for sure
It's there, floating on the air, must be everywhere
Saying do you want to share

Could it be
That what you want to see is
What you see
It's all around you
So please think of what you're saying
Don't rush

Think more of us
If you can try to understand
It's easy to make plans
Just love me if you can

What's your answer
Or will you take this chance and
Make a stand for
It must be everywhere
Love everywhere, everywhere
