

Ne-Yo, Decisions

(The angel says)

Take a second

Think about it

Ask yourself

Is it really worth it?

Really worth it

You got a good girl on your side

Even though that she don't deserve it

Don't deserve it

(But the devils says)

Look at how she looking at you

You know you wanna get it crackin'

Get it crackin'

& plus how can your girl get hurt

if she don't even know that it happen?

That it happen

Stumble like ooh

Cause I wanna do right

She looks so good tonight

& it's got me saying ooh

I wanna get it on

But I know that it's wrong

Decisions, decisions

I said decisions, decisions

I said decisions, decisions

I said decisions, decisions

Decisions, decisions

(The angel says)

What would you gonna do

if she was in the same situation?

Situation

Said think of her relationship

& walk away ignore the temptation

Said temptation

(But the devil says)

She that kind of girl so that ain't even how it would go

She never put herself in that place

So now I mess up, go ahead & be a man

Just make sure she never knows & everything will be OK

Got me saying ooh

Cause I wanna do right

But she looks so good tonight

& it's got me saying ooh

I wanna get it on

But I know that it's wrong

Decisions, decisions

I said decisions, decisions

I said decisions, decisions

I said decisions, decisions

Decisions, decisions

So what you gonna do?

Know you gotta make a move

Are you gonna do right

Or get down for the night?

Know you gotta choose

Said you know you love your girl

& you know she loves you too

But you gotta act yourself

Is it worth losing her to you

Got me saying ooh

Cause I wanna do right

But she looks so good tonight

& it's got me saying ooh

I wanna get it on
But I know that it's wrong
Decisions, decisions
Said decisions, decisions
Said decisions, decisions (decisions, decisions)
Said decisions, decisions (decisions, decisions)
Decisions, decisions
So what you gonna do?
